## IT'S WHAT SHE DOES

TANYA FINN, WL Eastside Alderman, does a multitude of things for Weatherby Lake...many of them without any recognition...she sees areas that need attention, and she takes care of them, without being asked. One of Tanya's best contributions to our community is her long standing dedication to making our Independence Day a great celebration, beginning with organizing the parade, all of the kid's games, the City vs WLIC softball game, the volleyball games, and the over-the-top fireworks display that never fails to amaze us. Tanya is certainly our Hero on many levels.

**THANK YOU, TANYA FINN, FOR ALL THAT YOU DO FOR OUR COMMUNITY!!**

## From the Editor

### LIFEGIVING WATER

There are many levels that make our community the unique place that we are all blessed to call home. The countless ways are defined by the individuals and their personal interests, that is true, but there would be no land of paradise, without the lake, ie, the water, itself. Oh, we might have a unique subdivision, but in addition to the amazing people who reside within our boundaries, it's the "water" that that makes WL what it really is. I was reminded of this recently, when I joined a small group who participated in a most gratifying whale watch excursion along the Provincetown coast Massachusetts. I struck up an enlightening conversation with an elderly couple from Japan, who were really engaged in the whole aspect of the tour. They both said that they were always drawn to the beautiful water...how they felt whenever they were just near the water...a river, lake, or sea.

Of course I knew exactly what that feeling is like...I experience it every day of my life...I'm sure you do too. It's what calls us to buy kayaks and pontoons...what excites us to race our sail boats...or spend hours every opportunity we can sitting on our patio's and docks just taking in the still calmness we get by merely being "with" the water.

Yes, our friends and neighbors give us the personal connection, but that can be found in other neighborhoods. Our neighbors and friends here are at a unique level...it's more like "family". What makes the difference? It's the "water". My son told me years ago that, "I had lake water in my veins". .

The Lake has been our saving grace during the Pandemic...presenting us with visual beauty and a place

to retreat for our serenity. It's the healing and sustaining gift we wake up to daily. We must never forget the promise we hopefully made when we accepted this gift...to always do our part to maintain our share of responsibility. It's not a gift that we are entitled to...rather a gift that has been created and maintained by the dedication of those ahead of us...and one that we must always commit to do the same. What comes to your mind when you think of contributing to the greatness of our community. Joining clubs might serve our own purpose of meeting people, but does it serve the community...make it a better place for others? Has an idea come to you that you feel would benefit others in a meaningful way? How does involving yourself with the water draw your thoughts to be open to personal giving? Sometimes, all it takes is a few moments of quiet time near the water to clear our mind. Maybe all we need to do is just commit to being open to ideas as they are presented.

It isn't my lake...it isn't your lake...it's "OUR" lake. Hang your toes in the water, and think about what that means to you.

*Peace & Goodwill*

## Mayor's Comments

Well here we are coming upon the dog days of summer. With the unusual cool and wet May and June, am I the only one that feels a little bit 'short changed'?

What an amazing 4<sup>th</sup> of July we had this year! The weather cooperated for all of the many events that were held. The fireworks were awesome as usual and it's always special to watch from on or near the water and hear that echo!

The annual Fireworks Fund had contributions of \$25,000; \$5,000 over the goal of \$20,000! So for next year our July 4<sup>th</sup> activities chairwoman, Tanya Finn advises me that \$25,000 is our goal. The company that we hire to purchase and shoot the fireworks told us the only bigger, more costly events that they do are held in Liberty - \$25,000 and Olathe -\$30,000. A huge thank you goes out to Tanya and her crew of helpers who make our annual 4<sup>th</sup> of July celebration so fantastic for 20 something years in a row and to all of you who donated as well.

I have very positive news to report on the Amity / Barry Roads and Eastside Drive traffic study that our City has partnered with Kansas City, Missouri on. I have been in frequent contact with Councilman Dan Fowler and his assistant Amy Justis over the last 5 or 6 months. Amy has just recently learned from the engineering firm that we and KCMO contracted with that the 'field study' portion is in progress and their final report should become available sometime within the next month or so. This is very important to everyone that travels through this very dangerous intersection. Our hope is that this engineering report provides answers as to what can be done to improve the safety of this intersection that lies 100% in the city limits of Kansas City.

With the help of Alderman Doug Richmond's technological knowledge and the contribution of an anonymous donor, the Town Hall meeting room at City Hall is being updated with 21<sup>st</sup> Century audio and video enhancements. We are installing microphones and speakers for both the presenters and audience, projection equipment and the ability to attend the meeting online for those unable to attend in person. We anticipate that the WLIC who also uses Town Hall will also benefit from this upgrade.

Because of the abundant rainfall that we have experienced this year, it has been brought to the City's attention that we are not doing our best in monitoring erosion mitigation. After viewing pictures and videos we have put various builders on notice that all silt fences should be checked after each rain event and our Public Works crew and myself will be more vigilant in making sure of full compliance.

I don't know about you but I plan on making up for the lost lake time opportunities from the spring and early summer for the next few precious months.

See you on the Lake!

Steve Clark—Mayor

## Kops Korner

Almost on a daily basis our mobile devices receive unwanted robocalls that try to exploit our personal information or receive money from us. These callers often manipulate the caller ID to appear as if a bank, credit card company, neighbor or government agency is calling. These types of calls are often disguised on our caller ID as local calls, which is called, "Spoofing." On June 30<sup>th</sup>, 2021 the Federal Communications Commission implemented new actions to be taken by providers to verify the origins of these callers. This is the first step with other actions coming to slow down/stop spoofing nationally. Remember to **NEVER** give out personal information over the phone. You can register your phone with the Federal Trade Commission, "Do Not Call Registry" for free at [www.ftc.gov](http://www.ftc.gov). You may file complaints with the FTC by going to [ftc.gov/complaints](http://ftc.gov/complaints).

The Weatherby Lake Improvement Company wanted to remind everyone not to leave any unsecured items on their boats or in the Kayak/Paddleboard storage racks.

As a reminder the annual Jeremy Katzenberger Memorial Triathlon will be held on Sunday August 29<sup>th</sup>, 2021. The participants will be competing on several city streets so I urge all motorists to use caution during this event. You can find more information about this event at: <https://jktri.weebly.com/>.

In June 2021 the Weatherby Lake Board of Alderman amended nuisance ordinance #215.010 with a new section (C) regarding Portable Storage Units, "PODS." This ordinance reads in part:

- It shall be unlawful for any person to park, place or suffer the placement of any PODS in or upon any street, highway, or roadway in the city.
- It shall be unlawful for any person to park, place or suffer the placement of any PODS upon any lot or property in the city other than on an improved surface.
- Any PODS which are installed, placed, deposited or parked on any property shall be so situated as to minimize the potential for interference with sight lines for motorists on adjoining streets and nearby driveways and shall be at least 15 feet from the edge of the roadway or street.
- No person shall install, deposit, park or leave any PODSs on any property within the city without first obtaining a permit from the City Clerk. A permit fee of \$50.00 would be required.
- This section shall not apply to the use or placement of construction trailers and equipment on property in association with ongoing construction activities carried out pursuant to a valid building permit.

## What's happening

### With the WL Historical Committee

The WL Historical Committee archives has been moved into a secure location which allows for expanded storage and a research work-space. A sub-committee has been gathering information to launch an Oral History Project of memories and reflections of long-time lake residents. Historical research will soon begin to gather information for a 2022 Historical Marker installation at City Hall. The Committee meets quarterly each year with special meetings as needed; however, group work continues year round.

A new sub-committee, "Friends of the WL Historical Committee", is seeking volunteers who are interested in assisting the main WL Historical Committee, with various projects.

## WLIC Update

WLIC Newsletter: Letter from the Intern

Hello Weatherby Lake residents, my name is Seth Casas and I have been happily working as the WLIC intern for the past four months. I am currently going into my final year of school at San Francisco State University studying Information Systems with a minor in Computer Science. Interestingly enough, because of the weird times we are currently living in my schooling is all online, allowing me to commit as much time as possible to working with the lake and its members! Working for the WLIC originally interested me because of the nature of the community that supports it, but since working here my passion for

this job has grown more and more because of the upcoming technical projects the WLIC has planned to better serve its members.

My first months here at the Weatherby Lake Improvement Company were completely remote and consisted mainly of answering calls and emails, helping members in any way I could, and attending virtual board meetings. After getting comfortable with my position and moving to in-person work at the office, I've been able to get more involved in the technical side of WLIC by using what I know about the office process to communicate in the Technology Committee how we can satisfy the offices needs and make improvements in the future. In the office I have been updating and making fixes to our database to make sure we can always access the information needed to ensure all members have a safe and fun time on the lake while also working on other small improvements like writing a script to automize the document filing process.

Working at the Weatherby Lake Improvement Company has been a great learning experience for me, not only because I've been able to get hands on experience with participating in board meetings, working in an office setting, and using technology to best fulfill the needs of this company, but also because it has taught me just how much a community can accomplish by working together. It is inspiring to me that the Weatherby Lake Improvement Company employees and volunteers work tirelessly year after year to maintain and improve the lake and work their best to truly embody the company's motto of "Together, we make a difference!"

Thank you for allowing me to be apart of such an amazing community!

## FRIENDS OF WEATHERBY LAKE HISTORY

The Weatherby Lake Historical Committee is extending an invitation to those residents who might have an interest in the history of our community, but don't feel like they can commit to serving on the main committee. We have a special group of residents who might like to help out now and then with a small project that will not require attendance at regularly scheduled meetings or a commitment to volunteering extended time. This is a great way to help at your convenience and interest. We keep your name on our "Friends of Weatherby Lake Historical Committee", and notify you when we might be in need of an hour or two to help freshen the Anders Jack Cemetery, or just let us know when you have an idea about our upcoming historical markers or thoughts on how to enhance our history preservation.

Let us know if you would like to participate. We are eager to welcome your ideas.

***Please contact Judy Shafe, WLHC President, or Pat Medill, Friends of WLHC.***

We are sorry for the inconvenience, but we are working hard to improve our parks. Thank you to Evan and his Scout Troop for providing much needed help to the Park Board!!

Thank You!

\*Margie Dercher - Thank you for your service on our Park Board for the past several years! Margie can be seen in all our parks, pulling weeds, moving mulch, and planting her beautiful flowers. We will miss you on the Park Board but will see you around the community.

\*Matt Hanson – Thank you for taking Margie’s place on the Park Board. We are happy to have you join us. Welcome!

The parks belong to all of us. Please pitch in and help us take care of all our parks. If there are limbs down, drag them over to the curb and they will be picked up. It takes all of us! If you would like to adopt a park, please let us know. It isn’t up to just the Park Board – it is up to all of us!

### Grant Received!

Over \$321,000. has been granted to the WL Park Board! Thank you, Platte Country Parks and Recreation, for the boost in revenue!

#### Plans for the grant:

## HIGH FLYERS DONATE PLANES

Dick Starks enjoying his 1915 German Taube (Dove) Bomber

Weatherby Lake is a great habitat for amazing and diversified talents, careers and hobbies. You just never know what your neighbor is creating, designing or doing to make life more interesting.

We thought it might be worthwhile to share what Dick & Sharon Starks do in their spare time. Their passion and love of planes and flying has become a source of very unique creations, and they share their creations in a generous and admirable way. They have built, flown, and donated four really unbelievable replicate planes.

The Topeka Combat Air Museum is the lucky recipient of these four planes, which include: a 1915 German Taube (Dove) bomber, a 1915 Dehavilland DH-2 fighter, a 1915 Morane-Saulnier (L) Patasol fighter, and a 1916 French Nieuport fighter.

Dick said they were running out of hanger space, so they needed to move a plane or two out to make room to build another one. They really like building planes.

Sharon (right) in her replica 1915 Morane-Saulnier (L) Parasol fighter. It's a replica of the first plane to down a German Zeppelin in WWI. The pilot was awarded the Victoria Cross. He was killed in action 12 days later.

Dick Starks's plane (left) is a replica of a 1916 French Nieuport 11. It's in the colors of the Lafayette Escadrille. It was the first squadron of American pilots to fly in the war. Their squadron insignia was of a screaming Sioux warrior. It was also painting of the label on the box of the Remington 303 ammunition they used on the Lewis machine gun mounted on the top wing of his plane. It was up there because at that time they didn't have the technology to shoot through the whirling blades of the propeller.

Sharon Starks stands in front of her Morane while on display at the Liberty Memorial.

TUESDAY, AUGUST 10  
6:15 PM SOCIAL; 6:40 PM PROGRAM  
C POINT PAVILION

WLGC welcomes Vickie Vetter-Scruggs of Paola,  
a Master Gardener, nature lover, organic enthusiast;  
passionate about herbalism, a bee keeper and manager of  
Orange Moon Apothecary.

Her farm sits on 80 acres along with her 30 chickens, 8 ducks, 2 peacock and 1 peahen,  
10 pigeons, 3 pet goats, 2 dogs and 2 cats. Looks like she's quite a farm gal who likes  
to stay busy!

Vickie spends quite a bit of time in her small business of hand making  
"simple, safe and earth-friendly herbal skin care". The use of her home grown  
herbs complete her products.

Join WLGC members for a sneak peek at her power point presentation  
and hear her story of why organic growing is so important and beneficial.

Libations, water, and snacks will be served.

Masks are not required but feel free to do according to your needs.  
Please help spread the word to join your gardening friends for an interesting  
"time on the farm".

TUESDAY, SEPTEMBER 14  
6:15 PM SOCIAL; 6:40 PM PROGRAM  
C POINT PAVILION

Please help me welcome a Master Gardener from Leavenworth,  
Charlotte Van Wormer, who will share her love and  
knowledge of the habitat of Monarch Butterflies.

Charlotte began her studies to become a Master Gardener in 2002.  
She received her training from the horticulture educators at K-State.

She decided to go on this adventure so she could share her love  
and knowledge of gardening and horticultural studies.

Along the way, she learned of the program at KU, dedicated to educating the  
public about monarch butterflies. Because of the loss of their  
habitat, and the use of pesticides and herbicides, the  
population is rapidly declining. There are several  
Butterfly Gardens in Leavenworth County, and there is hope to educate people,  
especially children, to become good stewards of the earth.

Migration will be in full swing so this is a fantastic time to have her  
present to us why the habitat for monarchs is so important.

Please join us as we continue the road in keeping this great earth clean and  
free of elements that are disturbing to the environment.

Libations, water and appetizers will be served.

Masks are not required but feel free to do according to your needs.

### ***Holiday Festivities***

July 4<sup>th</sup> is always super fun around the lake. We had a blast this year! The Women of Weatherby (WOW) parade float "won the gold", taking the 1st place award for "Best Represents Weatherby Lake". Special thanks to De Surma, Linda Pederson and helpers for all their hard work. We most certainly have the best place to live here at Weatherby and the best group of ladies!

We also wanted to say a huge THANKS for everyone who donated desserts for the SAV sponsored dance on July 3. We had a huge crowd this year and people really enjoyed themselves. You're awesome!

### ***Season Kickoff in September***

Our spectacular season kick off will be on **Thursday, September 9** at 6:30 pm at the Community Center. We'll be painting wine glasses! We had plans to do this event last September but were unable to do so in person, so we're super excited about it. More details will be shared soon on the website and through email.

### ***More about Membership***

Starting in September we will meet on the second Thursday of every month (Sept-May). Our group includes women of all ages and annual membership dues are only \$20. We would love to have you join us this season! To learn more about who we are, the difference we're making in the community, and how you can join, visit our website at [wlvomensclub.com/about](http://wlvomensclub.com/about).

### ***Phone Directory Update***

Thanks to all who have already submitted their updates for the WL phone directory. We've extended the deadline to **August 15, 2021** so please complete the form on our website at [wlvomensclub.com](http://wlvomensclub.com). You can also fill out the paper form you received in the mail and return it to WL City Hall in an envelope addressed to WLWC Phone Directory. # KNOW THY NEIGHBOR

*In-home monthly, fun & casual, gatherings for All residents for the purpose of getting to know your neighbors.*

On a Saturday of each month at 7:00 PM, October thru May, volunteer Weatherby Lake residents rotate hosting a casual social gathering in their homes. There are two options for the gatherings each month, either a casual sit-down meal or a Happy Hour style gathering with just appetizers. A host determines the number of guests they have. Neither the host nor the guest knows the identity of the other guests ahead of time.

The focus for both styles of the small group gatherings is not on the food, but rather on meeting neighbors, getting to know one another and developing friendships.

### I WANT TO PARTICIPATE, WHAT DO I DO

**FOR NOW:** To be on the monthly reminder list, just email us your NAME, PHONE NUMBER AND EMAIL

ADDRESS to: [KNOWTHYNEIGHBOR2@gmail.com](mailto:KNOWTHYNEIGHBOR2@gmail.com).

Each month you will be sent a reminder of the upcoming gathering. If you choose to participate that month, (you are not required to attend every time), you then choose either the sit-down option or the Happy Hour. Then you will be sent the location and food assignment for your gathering. See Option descriptions below.

**Attend a Dinner:** You will take one pre-assigned dish (appetizer, vegetable, salad with bread, or dessert), and your own beverage of choice.

**Attend a Happy Hour:** You take an appetizer and your own beverage of choice.

**Host a Dinner:** You provide your home, the main dish, water, coffee and tea.

**Host a Happy Hour:** You provide your home, one appetizer, tea and water.

**As always, KNOW THY NEIGHBOR does not schedule gatherings during the summer months.**

**WATCH FOR INFORMATION ABOUT THE NEW SEASON BEGINNING IN OCTOBER 2021.**

**HAVE A GREAT SUMMER!**

## NEIGHBORS HELPING NEIGHBORS

### Volunteer caring and temporary assistance for Weatherby Lake residents in time of need.

**NEIGHBORS HELPING NEIGHBORS** is a Weatherby Lake program composed of resident volunteers willing to help in a variety of simple ways. Sometimes that might be offering to take a neighbor a meal, cut the grass, clear snow, assist them in getting to an appointment, or just a friendly visit to help cheer. Accidents and times of grief occur to all of us and a caring neighbor sharing kindness can be a tremendous help. It's those occasional small acts of kindness that can make a huge difference.

We do not take the place of professionals or replace family responsibilities. We are simply your next door neighbors who are willing to volunteer help where we can, and we need YOU to help be a part of watching out for one another. Do you know someone who could use a temporary hand with something? Would you be willing to share an occasional small amount of time and effort to help someone in need? Do you have a talent that might be really helpful? The list of possible needs is varied. Typically, we might go for months without needing to offer our help, and even if we are called on to help, it is rarely more than once a month.

**NEIGHBORS HELPING NEIGHBORS** is always hoping to improve how we can be of assistance to one another. But, as caring neighbors, we could be limited in certain ways that assistance might be needed. We have developed an agreement with the PLATTE COUNTY SENIOR FUND program to work with them in ways that will assist Weatherby Lake residents to receive the best help available.

For general questions and information, or if you know reliable skilled resources that might be willing to help, contact Pat Medill, 456-2007. [PRMedill@aol.com](mailto:PRMedill@aol.com)

#### YOUR PRAYERS ARE NEEDED

We would like to increase those participating in our private prayer chain. Please let us know if you could offer an occasional prayer in this special private way to volunteer for your community.

Hope you were part of  
the record-breaking crowd at  
the Independence Day dance.  
A great time for all!
